

p5.js Community Video Info

[YOUR SECTION](#)

[GET STARTED](#)

[TIMELINE](#)

[STYLE GUIDE](#)

Below is very important information about the section you will be working with, a guide to getting started, your timeline, and your style guide. If you have any questions or concerns, please let me know at mayaman26@gmail.com.

YOUR SECTION

Assignment: You can find your name and assigned section on [this spreadsheet](#) (the start and finish time correspond to the video linked above).

Download: You can view and download your assigned video clip at [this dropbox folder](#). PLEASE make sure you download and are working with the time period you have been assigned on the spreadsheet!

Raw video preview: [VIEW THE FULL VIDEO HERE](#) (password: p5js)

GET STARTED

1. You will be working and updating your progress at [THIS GITHUB REPO](#). Never worked with github before? Let me know and we will work something out!
2. Find the folder corresponding to the time period you have been assigned and work in the JavaScript file provided.
// Please make sure you are working with your correct section. [DOUBLE CHECK YOUR TIME HERE](#) before you start working in the file.
3. Push your progress to the github repository as you work.

TIMELINE

Now: Begin working on creating your sketch! please continuously push your progress to the github repository so we can monitor everyone's progress on the project and keep track of all of your sketches.

July 21: We will provide each of you with a test framework you can use to see how your sketch is working with your clip.

July 31: PENCILS DOWN. All submissions should be finished by this date and the final products in the github repository.

STYLE GUIDE

Background: To keep the video consistent, we have assigned a specific background color to each section. The background color you must use has been already provided in the setup function of your javascript file. Please do not edit that line of code or change the background of your sketch.

Colors:

- pink #ED225D, rgb(237, 34, 93)
- blue #2D7BB6, rgb(45, 123, 182)
- grey #AFAFAF, rgb(175, 175, 175)
- white #FFFFFF, rgb(255, 255, 255)
- orange #EE9900, rgb(238, 153, 0)
- brown #A67F59, rgb(166, 127, 89)

// you are not limited to these colors, but keep them in mind as you are creating your sketch

Fonts (use only these!):

// in p5, the method “textFont()” will set the font-family of your text

- textFont(“times”) – for smaller sized or longer text
- textFont(“AvenirNextLTW01-Medium”) – for headings and larger sized text
- textFont(“inconsolatamedium”) – for text that should read like code

Elements: Feel free to incorporate the p5.js asterisk (.png & .svg found at [our github repo](#))
